GENTLE MENt—In response to the solicitation of a number of prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your Interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I as a candidate should advert to at least some of them that more directly concern your interests. I will say, then that having been one of the earliest advocates of a Canadian Transcontinental Radiway, I shall, if elected, consider it to be my paramount duty is view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire cultur-hastern Coast of the Island from Johnson Straits

tracer the Terkas of Union with the Pominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deam to be best suited to their varied incustrial interests, during the next ten years. Should, however, the question come before the bommion Parliament, I shall endeavor to have the tariff so tramed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Lastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better until facilities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intellito have the most rapid means of transmitting intelli-gence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early con-struction of a felegraph line to connect the two principal

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more highthouses. I shall therefore make the most streamens exertions to induce the Federal Government to build a lighthouse at Nanahmo at once, and to erect others elsewhere, as soon as possible, te insure greater safety and certainty in navigating the Gulf.

With respect to the Indians, I will urge that they be settled on itservations, under the superintensions of Government Agents, where they may, with the assistance of the Government, be taught the arts of distillation, and thus have their social, moral, and religious conditions rapidly improved.

The question of the early construction of a Marine Hespital at Nanaimo, I deem to be deserving of serious consisteration.

The Fisheries along our coasts premise to become very profitable, and as the Dominion Government has agreed o extens its protection and encouragement (o.ilint valuable and important branch of industry, I will endeavo o secure for your district its full share of any laid that may be appropriated for that purpose.

Not being atte at this time to explain my views at creater length, I will take an early opportunity to meet for personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and bominional character.

In concausion, Gentlemen, if you should do me the hon-r to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best on my ability.

To the Electors of Esquimalt, Metchosin, Sooke and Highland Districts.

MELLOW ELECTORS, in deference to the wishes of many, influential gentlemen, composing our body politic, I offer my services as one of your re-resentatives, in the coming session of the Local Legis

prescritatives, in the coming session of the Local Legislature.

I consider it would be superfluous to parade before an intelligent constituency a long array of glowing pronises, and if elected, I would only claim the poet's privilege, that is, to speak what you think.

My views are much in unison with yours, when I say that I am in favor of the imageliate adoption of the Canadian Tariff; amendment of the Civil List Act, to embrace only Heads of Departments; a liberal and non secturian School system maintained directly from the Yrovincial exchequer; large appropriations for roads and bridges, and other works of public utility throughout the Province.

The question of a Graving Dock in Esquimalt harbor and bridges, and other works of public utility throughout the Province.

The question of a Graving Dock in Esquimalt harbor is a necessity to our present and future wants, and highly practicable, and I will urge its claims in the House at the proper moment. A tax on wild lands, and free grants to iona fide settlers I would support. An extension of the franchise to all British subjects, and ballot voting, are reforms which I would also support.

I would only add, that the best interests of the Province, and especially of the district which I hope to have the honor to represent, will always be to me objects of my earnest solicitude.

CENTLEMEN:—While travelling through your district in July last, I was the recipient of very great encouragement to offer mysoif as a Candidate for the Parliament of the Dominion, of which this Province now so happily forms a part.

In soliciting your support at the forthcoming election it becomes my duty to express my views on Dominional politics, having a direct bearing upon the interests of Ritish Columbia, which I shall do as briefly as possible. I shall be a staunch supporter of the present Government of Canada so long as that Government shall administer the affairs of this Dominion in general, and of this Province in particular, in a satisfactory manner.

Knewing the feasibility of the Canadian Pasific Rall-road from personal observation along the greater part of the probable line of routs, and having advocated such an enterprise in my Overland Journal, published in Ontariot as well as on this coast for the past twelve years. I shall endeavor, by every means in my power, to bring that grand undertaking to a successful termination at Equinall or some other harbor on Vancouver Island.

I may here say that I am not in favor of introducing Coolic labor either on the Railroad or other public works and will stremuously resist any attempt in that direction.

Should the Tarifi problem not be solved by the Local Legislature; but a modification of the Canadian Tariff, in so far as agricultural produce is concerned, recommended, I shall make every possible effort to secure its adoption by the F-deral Parliament.

I am fully of the opinion that the Federal Government will place mail communication on a thoroughly efficient footing from Sooke to Comox long before the re-opening of Parliament; should this, however, not be the case i shall, if elected your representative, see to it, that every settlement is duly cared for in this important particular. Tuesday, October 10, 1871 Dominion Patrouage. We have before alluded to Dominio patronage for this Province. Circumstances make it necessary to review the For San Francisco Direct. subject again. There is a host of people who aspire to office, and an army of carpet-baggers who won't get any. Uncle Jean Baptiste is supposed to be as generous as Brother Jonathan after a presidential election, and will make offices with fat salaries for asp rants of all parties. Now let no one be deluded.

There are not a great many offices to be prize are not a great many offices to be prize a many but as much say has a much say here. given away,—but as much can be made at farming, fishing, and chopping cord-wood, as out of some of the Federal offices, besides a higher degree of cer-tainty of earning an independent liveli-hood. In fact we never recommend any one to take to office-hunting. The any one to take to office-hunting. The real progressive man—the benefactor of his race—seldom if ever holds an office.

Bold utterances and independent action on board the Prince Alfred. Your company his race—seldom if ever holds an office.
Bold utterances and independent action must feel themselves lucky to have a Captain fort of passengers on board their steamer.

Wishing you a continuance of good health and every prosperity, I remain,

My dear Captain Scholl,

Yours very truly,

HECTOR L. LANGEVIN,

M. P. W. C. of these will command haudsome salaries, others will only bring bread buttered on one side. Now without discussing the number, except to say that we favor economy and not extravagance,—we naturally ask who is to dispense the patronage for this Province? It certain y causet be Gov. Trutch ; for he is to occupy a position removed from par-tisanship. In the next place if he did advise that the patronage should be given away to certain persons,—in all probability it might conflict with the interests of the very men on whose shoulders would rest the entire responsibility of making the government of this Colony a nccess,—of producing harmony between the central—general government and this out-lying Province of the Dominion. Gov. Trutch might make the most judicions recommendations imaginable; still we don't consider it to be judicious to make him the dispenser of Dominion patronage here, or rather the person to indicate to the Ottawa Cabinet who cought and ought not be appointed. If we may venture the opinion, we would say that the proper person to advises the Cabinet on the subject of patronage will be the representatives of the Province in the Norse of Commons. They constitute the Norse of Commons. They constitute the Norse of Commons.

The inquiry is often made,-when will the Legislative Assembly meet? Now in answer we have to say that we don't know; but can only presume that it will not be later than early in December. The necessities of the country require an early meeting for the despatch of business. Besides that, under the dual system of representation that Sir Geo. E. Cartier so strongly recommends, fall sessions become absolutely necessary
